Frequently asked questions	12

1. Locate your marketplace

Choose your marketplace/billing country rate card. Orders must be placed in that marketplace. FBA Pan-EU sellers: Domestic fees may apply.

2. Find your size tier

Match your items longest, second-longest, shortest dimension and weight to the size and weight bands in each rate table. Use the actual product dimensions, not packaging.

3. Choose your destination & speed

For domestic orders, select the country and choose either Standard or Expedited speed. For cross-border orders, select the EU destination zone.

4. Locate your per unit fee

Locate your Units per Order (UPO) column: 1, 2 or 3+. Each fee listed applies per unit to every item in that order.

Units per Order (UPO)

The UPO is the total number of units in one order (1, 2 or 3+). Every item shares the same fee tier, regardless of individual size.

Surcharges

Elevated fuel and logistics costs have increased operating expenses across the industry. While we have absorbed these increases to date, a 1.5% fuel and logistics-related surcharge will be applied to MCF fulfilment fees in the EU to help offset a portion of these costs, consistent with other major carriers.

Frequently asked questions

MCF fees · Size tiers · Programme eligibility

1. Key updates and improvements

Q: When do the new fee changes come into effect?

The new MCF fulfilment fees go into effect on May 29, 2026.

Q: When do you plan to change fees again?

Fee changes are commonly made by fulfilment providers on an annual basis. We continue to review our fee structure and, if additional changes are needed, we'll provide prior notice to sellers.

Q: What has changed?

Simplified European cross-border fees: We have introduced a zonal approach to cross-border shipments. Previously, we had one rate card to ship from your German, French, Italian, or Spanish account to any other EU country. We've now grouped EU countries into up to 6 zones to better reflect source and destination.

For example, in Germany, shipping to the Netherlands will now be a Zone 1 rate (closest to Domestic), while shipping to Portugal will be Zone 3. For Spain, shipping to Portugal will be Zone 1 but shipping to Cyprus would be Zone 6 (furthest from Domestic).

Small Parcel	up to 35 × 25 × 12 cm and between 1,9 kg and 3,9 kg	NEW	12,12 €	7,25 €	5,51 €
		OLD	17,20 €	16,34 €	15,91 €
		DIFF	(5,08 €)	(9,09 €)	(10,40 €)
		DIFF %	-29,5 %	-55,6 %	-65,4 %

Pan-EU Programme: We have also removed all Pan-European (Pan-EU) surcharges for non-Oversize but, if you are part of Fulfilment by Amazon's (FBA) Pan-European programme, then you can still take full advantage of Pan-EU by using the Domestic rate card for orders shipped to Germany, France, Italy, and Spain.

Reduced fees on multi-unit orders: This year we have also increased our discounts on orders of two or three plus units on Domestic orders, saving up to 40% per unit, dependent on size band and quantity.

Q: Where can I see the previous rate card?

You can view the previous rate card [here](#).

Q: How much will I be charged if I ship multiple units for an order?

The number of units in your order determines what you'll pay for each item in that order. If an order has one, two, or three or more units within the order, your order will be considered 1 unit per order, 2 units per order, and 3+ units per order, respectively. Your per-item fee will then be based on the unit per order of that order, regardless of the size tier.

For example, if the order that you're shipping is 2 units per order, and it's made up of a light envelope 80 g item and a standard parcel 9.9 kg item, then both items will be charged the 2 unit per order rate for the respective size tier. This is the calculation method for all ship speeds.

Q: What savings can the new rate card unlock for my business?

For an Extra-Large Envelope shipped domestically within Germany, if you ship 10,000 units with 3+ units per order, you previously would have paid 41,300 €. Under the new rate card, this would be 31,600 €, a saving of 9,700 €.

Q: How does Expedited shipping within Germany now offer better value for my business?

Expedited is the fastest domestic delivery option within Germany, designed to support delivery within 1-2 business days, with orders prioritised for faster processing and shipment. Under the new rate card, for an Extra-Large Envelope shipped domestically within Germany, if you ship 10,000 orders with 3+ units per order, you previously would have paid 50,138 €. Under the new rate card, this would be 38,200 €, a saving of 11,938 €.

Q: How does the new rate card make Pan-European more attractive for MCF orders?

For MCF orders, Pan-EU can help position inventory across Germany, France, Italy, and Spain, improving delivery performance and enabling access to domestic fees where local fulfilment is available. Under the new rate card, the additional Pan-EU surcharge no longer applies, except for Oversized orders.

For example, for an Extra-Large Envelope, an order placed in France and shipped to Germany, with the ASIN Pan-EU enabled in Germany, already benefits from access to the Germany domestic fee. Previously, it would also have incurred 2,500 € in Pan-EU surcharges across 10,000 units. Under the new rate card, this surcharge is removed.

Q: What do the new zones mean for your business when shipping from Germany?

The new zoning structure helps align cross-border fees more closely to destinations, making the rate card easier to follow and lowering prices on selected routes.

For example: an Extra-Large Envelope shipped from Germany to the Netherlands now costs 8.51 € instead of 9.07 € for a single-unit order, saving 5,600 € across 10,000 orders. For 3+ unit orders, the fee drops from 6.83 € to 4.86 €, saving 19,700 € across 10,000 orders.

1. Key Updates and Improvements

Q: Will I still have to pay the Pan-EU surcharge?

We have removed the Pan-EU surcharge on Envelopes and Standard parcels, meaning you now save 0.25 € (Envelopes) or 0.35 € (Standard Parcels) on every unit and still get the Domestic rate card on every unit you ship to Germany, France, Italy, or Spain – no matter where you place your order.

Q: Will I still have to pay the long-distance surcharge?

We have removed the surcharge of 2.00 € for Envelope, 2.50 € for Parcel, and 4.50 € for Oversize, charged when shipping to: Bulgaria, Cyprus, Denmark, Estonia, Finland, Greece, Croatia, Hungary, Lithuania, Latvia, Malta, Romania, Sweden, Slovenia, and Slovakia. Instead, each country will sit within an appropriate fee zone.

For example, shipping 1 Small 400g Parcel from Germany to Denmark (Zone 2) will now save you 18% on the previous fee.

			1 Unit per order	2 Unit per order	3 Unit per order
Small Parcel	up to 35 × 25 × 12 cm and between 150 g and 400 g	1	-2,28 €	-2,71 €	-2,68 €
		5	-11,38 €	-13,53 €	-13,41 €
		10	-22,77 €	-27,06 €	-26,82 €
		50	-113,83 %	-135,31 %	-134,10 %

Q: Why should I choose Expedited if it is more expensive?

Standard is fast and reliable, delivering domestically in 2-3 business days but Expedited unlocks our fastest shipping and delivery speeds, meaning tracking numbers are shared earlier and the package reaches your customer faster. In Germany, Expedited offers order to delivery in 1-2 business days for eligible orders.

2. Using MCF across Europe

Q: Does the rate card include VAT?

Fulfilment fees are shown exclusive of VAT, as VAT rates vary depending on factors such as product type and destination. See [VAT resources](#) for more information.

Q: I’m an EU-domiciled business, how can I get the MCF VAT-related reporting needed for my tax return?

This is available in your tax reporting library, alongside your FBA reports.

Q: I’m an EU-registered business, what VAT will I be charged?

This depends on many factors, see [VAT resources](#) for more information.

Q: I’m an out-of-region merchant, what VAT will I be charged?

This depends on many factors, see [VAT resources](#) for more information.

Q: How can I comply with EU regulations like VAT registration and Extended Producer Responsibility (EPR) for my off-Amazon orders?

The Compliance Services Store* (CSS) lets you find, compare, and enrol in compliance services directly on [Seller Central Service Hub](#), making it easier to manage compliance for selling in the EU and the UK. You can browse VAT and EPR third-party providers who have been vetted through Amazon's rigorous onboarding process. Compare VAT and EPR registration and filing offers to find what works for your business. Add multiple offers to your cart if you need multi-country bundles. Enrol and monitor your service status on [Seller Central Service Hub](#).

*Services are provided by external providers and are subject to their terms and conditions. Amazon does not provide compliance or advisory services.

Q: How do I know which MCF fee applies to my order?

- To find the right fee:
1. Select the rate card for the store where you plan to place your order (choose from Germany, France, Italy, or Spain).
 2. Find the size band that matches the dimensions of your item.
 3. Find the zone of the country you wish to ship to (for Domestic orders you can choose between Standard and Expedited speeds).
 4. Find how many units you wish to send (this will show the per unit fee).
 5. If your ASIN qualifies for Pan-EU and you are shipping to Germany, France, Italy, or Spain, refer to the Domestic/ Pan-EU rate card as you will only be charged the Domestic fee of that country, not the zonal fee.

Q: What is the Central Europe Programme (CEP)?

The Central Europe Programme (CEP) is an FBA Program that can strengthen your MCF setup from Germany by allowing eligible inventory to be stored in Poland and the Czech Republic. This gives you access to a broader fulfilment network that’s built to support growing demand and improve operational efficiency. It can also help avoid the additional 0,26 € fee per unit charged when inventory is stored only in Germany. Some product categories may not be eligible and storing inventory in these countries may create VAT and reporting obligations. Learn more on the [Central Europe Programme page](#).

Q: What are the cross-border fulfilment options for MCF?

MCF can leverage Amazon’s cross-border fulfilment programmes, including Pan-European FBA, European Fulfilment Network (EFN), and Multi-Country Inventory (MCI). Depending on your inventory setup and programme eligibility, these options can help you serve customers across EU countries through Amazon’s wider fulfilment network.

Q: How can Pan-European FBA improve delivery performance for MCF Orders?

Pan-European helps position inventory across Germany, France, Italy, and Spain, enabling local fulfilment where available and providing access to domestic fees in those countries. Learn more on the [FBA's Pan-European page](#).

2. Using MCF across Europe

Q: How can Pan-European FBA improve delivery performance for MCF Orders?

Pan-European helps position inventory across Germany, France, Italy, and Spain, enabling local fulfilment where available and providing access to domestic fees in those countries. Learn more on the [FBA's Pan-European page](#).

Q: What is the European Fulfilment Network (EFN)?

With EFN, MCF can help grow your reach across EU countries by enabling cross-border fulfilment from inventory stored in Germany, France, Italy, or Spain. From Germany, nearby cross-border destinations such as Austria, Belgium, France, Luxembourg, and the Netherlands, can be reached in as fast as 2-3 business days. For the latest delivery times by destination, visit the MCF help page in Seller Central.

Q: What are the tax implications of international storing?

If you store goods in any EU country, you will also be required to comply with VAT obligations in that country. Visit [Amazon's VAT knowledge Centre](#) to find out more.
